## EDUCATION

2025-2029

**OREGON STATE UNIVERSITY**

- BS in Environmental Science

2019-2023

**RUBEN S. AYALA HS**

- AP Biology
- Honors A&P
- Chemistry
- GPA: 3.5

# ENCKYE MUNSEE

ASPIRING WILDLIFE & CONSERVATION PROFESSIONAL

## PROFILE

Motivated undergraduate student with a strong interest in biology, conservation, and animal sciences. Eager to apply classroom knowledge and independent conservation research to real-world projects. Seeking a science internship to gain hands-on research and laboratory experience, while contributing enthusiasm, attention to detail, and a strong work ethic. Dedicated to building a foundation in scientific methods, collaboration, and data analysis to prepare for a long-term career in environmental sciences.

## PROJECTS & INITIATIVES

### Conservation Outreach

Founder and Manager

PRESENT

- Founded and manage The Lazy Shark Project, an online community promoting accessible conservation. Create educational content on marine life, sustainability, and wildlife protection, reaching audiences on social media and Discord. In the process of manufacturing sustainable apparel and outdoor gear.

### Independent Research

Student

2020-PRESENT

- Explored topics in shark ecology, marine ecosystems, and conservation policy through independent study. Applied self-directed research to create accessible science communication resources and outreach materials, including educational posts and discussions. Hosted local clean ups. Conducted and participated in interviews with conservation professionals to gain deeper insight into current challenges and solutions within the field.

## WORK EXPERIENCE

### Kennel Technician & Receptionist

Heritage Animal Hospital

2024-2025

- Cared for animals in a clinical and boarding environment, monitoring health, administering feed, and maintaining clean, safe enclosures.
- Supported veterinarians and staff with daily operations, requiring precision and responsibility.
- Strengthened communication skills through frequent client interactions.
- Communicated with clients and maintained detailed records.
- Developed strong attention to detail and responsibility

## SKILLS

---

- Foundational knowledge in biology, ecology, and animal behavior
- Basic laboratory familiarity (microscope use, lab safety, data collection)
- Strong research and writing ability from academic and independent projects
- Communication and teamwork skills
- Highly motivated, organized, and detail-oriented

## LANGUAGES

---

- English (Fluent)
- Spanish (basics)

### Shift Lead / Team Member

Skate Express

2022-2023

- Supervised team operations, handled customer interactions, and ensured safety compliance.
- Gained experience working in fast-paced environments requiring focus, adaptability, and teamwork.
- Managed time-sensitive tasks in a fast-paced environment.

### Crew Member

Raising Cane's Chicken Fingers

2023-2024

- Worked in a fast-paced team environment requiring efficiency, reliability, and customer service.
- Maintained quality control and attention to detail under pressure.

## ADDITIONAL INFORMATION

---

- Passionate about marine biology, wildlife conservation, and environmental sciences
- Aspiring wildlife technician with long-term career goals in conservation and research
- Strong drive to gain hands-on experience and apply academic learning to real-world science initiatives
